**ABSTRACT:**

PROBLEM TO BE SOLVED: To provide a bag for sales of hung shoes in which the shoes can be taken out by several times and the shoes can be sold in a superior outer appearance.

SOLUTION: The bag 1 for sales of hung shoes comprises a hang reinforcing section 2, a bag main body 3 having an opening at its upper part and a sealing section 5 covering the opening. The bag main body is comprised of a front surface film 32 and a rear surface film 31. The hang reinforcing section is arranged at the upper part of the bag main body. A fastening member 6 is arranged at a position where the front surface film and the sealing section of the bag main body are oppositely faced to each other. The opening part can be opened or closed.
